CAKE

METROGRO[®] Cake is a semi-solid product resulting from the treatment of wastewater solids and is ideal for agricultural farming and the reclamation of disturbed land because of its humus content and macro and micronutrients.

The application of METROGRO[®] Cake to agricultural land includes usage restrictions, regulatory permitting, and monitoring processes.

\$8.00 per Acre for 75 lbs or less of Nitrogen applied per Acre
\$12.00 per Acre for 76 lbs or more of Nitrogen applied per Acre
plus a fuel surcharge calculated at 2% of the District's current fuel cost per gallon times total number of miles.

*Price includes the soil sample, transport, application and incorporation if required or upon request.

Under the Metro District's Environmental Management System (EMS) for Biosolids program, every effort is made to exceed the regulatory requirements for processing, transporting and land applying biosolids for beneficial use. This is our commitment to continual improvement.

Feel free to contact the Metro District if you would like more information.
